

RIBA MUNDO TECNOLOGÍA

RIBA MUNDO TECNOLOGÍA: ePRICE IT INFORMATION

Valencia, June 12, 2025

Riba Mundo Tecnología S.A., (the "**Company**" or "**Riba Mundo**") - tech company specialising in Big Data active in the B2B segment of consumer electronics, based in Valencia (Spain) and listed on the Euronext Growth Milan market - regarding the notice of an alleged data breach involving its subsidiary ePRICE IT (see press release of March 31, 2025), announces that, following appropriate investigations and checks carried out by the internal IT team in collaboration with cybersecurity partners, **no data breach occurred and user data is safe.**

The analyses conducted have conclusively confirmed that there was no data compromise and that the information circulating did not originate from ePRICE IT's systems. Therefore, the claim that a database containing customer data had been stolen and put up for sale on a dark web forum is false. The alleged database in question is not attributable to ePRICE IT. It is most likely a fraudulent compilation of data, consisting of publicly available sources and information from other contexts unrelated to the ePRICE e-commerce platform.

The management thanks its employees and cybersecurity partners for their support and prompt response in analyzing the incident.

The company remains available for further inquiries via the [dedicated link](#).

This press release is available on the website of Riba Mundo Tecnología, investors.ribamundotecnologia.es, in the Investor Relations section and on www.1info.it.

Riba Mundo Tecnología

Riba Mundo Tecnología S.A., listed on Euronext Growth Milan (ISIN ES0105724001, ticker RMT) is a tech company specialized in big data, is active in consumer electronics B2B trading on a global scale. The core business is mainly focused on the category of smartphones and tablets, with the progressive expansion covering also entertainment and computing devices. Incorporated in 2018 with legal, operational and logistical headquarters in Valencia (Spain), the Company has developed MarVin, a proprietary big data software designed according to data-driven criteria for the optimisation of purchasing, sales and demand forecast generation processes, in order to ensure the efficiency of consumer goods inventory management. Distributing in more than 45 countries, with a team of around 70 employees and a base of more than 1,000 international customers, Riba Mundo has proven to have developed an innovative and efficient business model capable of generating high growth. In 2024, total revenues exceeded EUR 480 million, reporting a CAGR 2019-2024 of +67%, EBITDA stood at EUR 6.5 million.
