

RIBA MUNDO TECNOLOGÍA:

LAST TRANCH OF €10.5 MILLION RECEIVED FROM INSURANCE COMPANY TO COVER DAMAGE CAUSED BY FIRE AT VALENCIA WAREHOUSE

Valencia, December 5, 2025

Riba Mundo Tecnología S.A., (the "**Company**" or "**Riba Mundo**") - tech company specialising in Big Data active in the B2B segment of consumer electronics, based in Valencia (Spain) and listed on the Euronext Growth Milan market – announces that it has received the final instalment of €10.5 million from the insurance company following the damage caused by the warehouse fire on 25 January 2025, covering the total lost goods, logistics costs, relocation and warehouse renovation work incurred by Riba Mundo.

This final instalment is in addition to the first €10 million received on 14 May 2025 and the €5 million received on 31 July 2025, for a total compensation of approximately €25.5 million.

Andrea Dezi, Buyer Director and member of BoD of Riba Mundo Tecnología S.A., commented:

" After such a long wait, the final insurance reimbursement for the fire that struck us almost a year ago has finally arrived.

It's been tough period, no denying it, but even before the summer we managed the arduous task of significantly rebuilding our catalogue, since in recent months we had a catalogue with more than 1,700 active items.

This injection of oxygen can only push us back to our usual levels, which have distinguished us, namely, more than 5,000 active items, avoiding stockouts.

Personally, I would like to thank all the suppliers who placed their trust in us this year, as well as the many suppliers who have returned and are continuing to return to work with us in significant numbers .

We obviously thank the entire Riba Mundo team for their commitment and sacrifice, and above all those who pushed us to fight beyond our limits, where others in our place would have given up. We have never had any doubt."
